

# Confirmation

The Swiss climate protection foundation myclimate confirms that it has checked and validated the CarbonCare emissions calculator in December 2018 and January 2019.

myclimate confirms that CarbonCare

- complies with the European Standard EN16258,
- the emissions (CO<sub>2</sub> and CO<sub>2</sub>e, TTW and WTW) are calculated robustly and reliably in the transport sectors (AIR, SEA, IWW, ROAD, RAIL and XSHIP),
- the results are comprehensible, sustainable and solid and are comparable with other calculators in the usual variations.
